

The MSFC Documentation Repository is forming a users group, and we want you, *along with your ideas and suggestions*, to help shape the future of the Documentation Repository. Over the past several months we have made improvements to our operations, and we want to continue to make even more!

If you are interested, and can spare an hour or so each quarter, then please join us. As hands-on users, you can help us understand what is important to the user community, enabling us to make smart business decisions.

To register as a member of the Repository Users Group (RUG), please send an email to repository@msfc.nasa.gov or call the workorder desk at (256) 544-4490.
